- Listed on the NASDAQ exchange in Stockholm since 1998
- About 600 employees in Sweden, Norway and Denmark
- Certified ISO9001 and ISO13485
- Providing advanced solutions and consultancy services within product development and production development

Product Development.

Airbag for bikeriders from **Hövding**. “The world’s safest head protection is worn like a collar around the neck”.

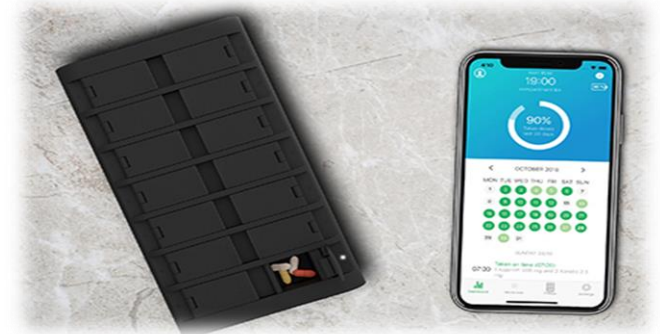

Kontigo Care and Prevas have been collaborative partners for several years, with Prevas developing the hardware solutions that Kontigo Care needs to fulfill its visions for improved dependency treatment.

Development partner for diagnostic instrument makers eg **Alere Afinion** (Axis shield) in vitro diagnostic point-of-care testing (IVDPCT).

Together with **Zenicor** we developed a remote cardiac diagnostics hand-held ECG recorder. Measurement begins when the patient puts his/her thumbs on the electrodes. Microvolt ECG signals are measured

Pilloxa AB has In collaboration with Prevas developed a solution to assist people with life-long medication needs. By combining software and hardware with Internet of Things, and so developed a product that is both smart and compatible with future solutions and needs.

Ingenuity will save the world.
